Sommario/riassunto	While traditionally powerful Western economies are treading water at best, beset by crises in banking, housing, and employment, industrial growth and economic development are exploding in China and India. The world's two most populous nations are the biggest reasons for Asia's growing footprint on other global regions. The increasing size and impact of that footprint are especially important in the Middle East, an economic, religious, and geopolitical linchpin. The East Moves West details the growing interdependence of the Middle East and Asia and projects the likely ramifications o
