November 2000); Appendix II - Academic Honours for Dr Temngah
Joseph Nyambo of the University Of Douala; Back cover

Sommario/riassunto

The bicultural polity of Cameroon has become problematic over the years. In addition to the increasing marginalization experienced by its English speaking component in many domains (politics, administration, economy, culture), it is facing mounting inequality and disarray despite the nation-building aspirations at reunification in 1961. This book examines the very basis of the union crisis by tracing the causes to the asymmetrical nature of negotiations between the contracting partners n the founding fathers of the union n and the politics of guile and force that has characterized the regimes

2. Record Nr.	UNISA996387141903316
