

1. Record Nr.	UNISA996387211203316
Autore	Stephenson N (Nicholas), <fl. 1674-1680.>
Titolo	The royal almanack: or, a diary of the true places of the sun, moon, and planets [[electronic resource] ] : their rising, southing, and setting, high-water at London-bridge, with rules to serve other places after the new theory of tides, and directions of Sir Jonas Moor. To which are added the eclipses, tables of the suns rising, moons southing, moons rising and setting. A table of the suns right ascension in time for every day at noon, and of thirty one of the most notable fixed stars. With the moon and other the [sic] planets appulses to the fixed stars, for the meridian of London, Anno 1676. and of his Majesties happy reign 28. All done with great pains, according to the rules of art, for his Majesties use; and at his command. By N. Stephenson, one of his Majesties gunners
