

1. Record Nr.	UNISA996388968603316
Autore	Lilburne John <1614?-1657.>
Titolo	A plea made by Liev. Col. John Lilburne [[electronic resource]] : prerogative prisoner in the Tower of London the 2 of Decemb., 1647, against the present proceedings of the close and illegall Committee of Lords and Commons appointed to examine those that are called London Agents
Pubbl/distr/stampa	London, : [s.n., 1647]
Descrizione fisica	1 sheet ([1] p.)
Soggetti	Civil rights - England Letters 17th century. England London Great Britain History Civil War, 1642-1649 Early works to 1800
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Caption title. Date of publication suggested by Wing (2nd ed., 1994). Reproduction of original in: Worcester College (University of Oxford). Library.
Sommario/riassunto	eebo-0121

Software Requirements and Design -- The Future of Software: Adaptation and Dependability -- Autonomic Computing Now You See It, Now You Don't -- Impact of Usability on Software Requirements and Design -- Software Testing and Reverse Engineering -- Service-Oriented Architectures Testing: A Survey -- The PLASTIC Framework and Tools for Testing Service-Oriented Applications -- Architecture Reconstruction -- Management -- Collaboration in Distributed Software Development -- Web Cost Estimation and Productivity Benchmarking -- Knowledge Base and Experience Factory for Empowering Competitiveness.

## Sommario/riassunto

Software engineering is widely recognized as one of the most exciting, stimulating, and profitable research areas, with a significant practical impact on the software industry. Thus, training future generations of software engineering researchers and bridging the gap between academia and industry are vital to the field. The International Summer School on Software Engineering (ISSSE), which started in 2003, aims to contribute both to training future researchers and to facilitating the

exchange of knowledge between academia and industry. This volume constitutes a collection of articles originating from tutorial lectures given during the last three ISSSE summer schools, as well as a number of contributions on some of the latest findings in the field of software engineering. The book is organized in three parts on software requirements and design; software testing and reverse engineering; and management.

ADL Detection, Recognition, Classification -- Behavioural Changes, Coaching and Education -- AAL Design and Technical Evaluation -- Expression, Mood and Speech Recognition -- Health Monitoring, Risk Prediction and Assessment -- Localization -- User Preferences, Usability, AAL Acceptance and Adoption -- Workshop on User and Ambient Adaptive Gerontechnologies (WAGER).- Health Technology Assessment (HTA) of Healthcare Telematics.

This book constitutes the refereed proceedings of the 6th International Workshop on Ambient Assisted Living, IWAAL 2014, held in Belfast, UK, in December 2014. The 42 full papers presented with 12 papers of the workshop WAGER 2014 and 10 papers of a special session HTA were carefully reviewed and selected from numerous submissions. The focus of the papers is on following topics: ADL detection, recognition, classification; behavioural changes, coaching and education; AAL design and technical evaluation; expression, mood and speech recognition; health monitoring, risk prediction and assessment; localization; and user preferences, usability, AAL acceptance and adoption.
