Anthony Howe, 'don't imagine it an a propos des bottes': Keats, the Letter, and the Poem -- 16. Angela Wright, 'The

house of misery': Space and Memory in the Later Correspondence and Literature of Mary Wollstonecraft Shelley.

Sommario/riassunto

Romanticism and the Letter is a collection of essays that explore various aspects of letter writing in the Romantic period of British Literature. Although the correspondence of the Romantics constitutes a major literary achievement in its own right, it has received relatively little critical attention. Essays focus on the letters of major poets, including Wordsworth, Byron, Shelley and Keats; novelists and prose writers, including Jane Austen, Leigh Hunt and Charles Lamb; and lesser-known writers such as Melesina Trench and Mary Leadbeater. Moving from theories of letter writing, through the period's diverse epistolary culture, to essays on individual writers, the collection opens new perspectives for students and scholars of the Romantic period. Madeleine Callaghan is Senior Lecturer in Romantic Literature at the University of Sheffield. Liverpool University Press published her first monograph, *Shelley's Living Artistry: The Poetry and Drama of Percy Bysshe Shelley*, in 2017, and her book, *The Poet-Hero in the Work of Byron and Shelley* (2019) is published by Anthem Press. Anthony Howe is Reader in English Literature at Birmingham City University. His publications include *Byron and the Forms of Thought* (Liverpool, 2013) and *The Oxford Handbook of Percy Bysshe Shelley* (2013), edited with Michael O'Neill. He is currently writing a monograph about literary letter writing in the British Romantic period.

3. Record Nr.	UNINA9910300085403321
Autore	Varon Joseph
Titolo	Acute and Critical Care Formulas and Laboratory Values / / by Joseph Varon, Robert E. Fromm, Jr
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2014
ISBN	1-4614-7510-4
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (196 p.)
Disciplina	616.028
Soggetti	Critical care medicine Anesthesiology Cardiology Intensive / Critical Care Medicine Handbooks and manuals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Cardiovascular Formulas and Facts -- 2. Endocrinology and Metabolism Formulas -- 3. Environmental Facts and Formulas -- 4. Gastrointestinal Facts and Formulas -- 5. Hematological Facts and Formulas -- 6. Infectious Diseases Formulas and Facts -- 7. Neurological Formulas and Facts -- 8. Nutrition Formulas and Facts -- 9. Obstetrics & Gynecology Formulas and Facts -- 10. Oncology Formulas -- 11. Pediatric Formulas and Laboratory Values -- 12. Pulmonary Formulas and Facts -- 13. Renal, Fluid & Electrolyte Formulas and Facts -- 14. Statistics and Epidemiology -- 15. Toxicology Formulas and Facts -- 16. Trauma Facts and Formulas -- 17. Common Laboratory Values.
Sommario/riassunto	This pocket guide is a single-volume source of the most common and important formulas and laboratory values used in the daily practice of acute care and critical care medicine. Information is presented in outline format and as tables, graphics, and algorithms to facilitate quick look up. Acute and Critical Care Formulas and Laboratory Values is designed to help clinicians interpret clinical data, apply formulas, understand laboratory values, and integrate this information with their knowledge of pathophysiology to promote the delivery of evidence-

based care. Essential formulas and laboratory values Multiple ways to derive a value, where appropriate Non-clinical formulas useful for understanding physiologic concepts or that underlie diagnostic tests or clinical measurement included Chapters divided by organ system Practical appendixes of "Abbreviations" and "Key Telephone Numbers" A special "Notes" section for recording frequently used formulas.
