

1. Record Nr.	UNISA996389862703316
Autore	Cuff Henry <1563-1601.>
Titolo	The differences of the ages of mans life [[electronic resource]] : Together with the originall causes, progresse, and end thereof. Written by the learned Henry Cuffe, sometime fellow of Merton Colledge in Oxford
Pubbl/distr/stampa	London, : Printed by T[homas] H[arper] and are to bee sold by Nathaniell Butter, MDCXL. [1640]
Edizione	[Newly revised, and divided into chapters, with a necessary table of the contents annexed.]
Descrizione fisica	[32], 213, [3] p
Altri autori (Persone)	R. M <fl. 1633.>
Soggetti	Life Mortality
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Editor's dedication signed: R.M. Printer's name from STC. The last leaf is blank. Reproduction of the original in the British Library.
Sommario/riassunto	eebo-0018

2. Record Nr.	UNINA9910337898003321
Titolo	Advances in Remote Sensing and Geo Informatics Applications : Proceedings of the 1st Springer Conference of the Arabian Journal of Geosciences (CAJG-1), Tunisia 2018 // edited by Hesham M. El-Askary, Saro Lee, Essam Heggy, Biswajeet Pradhan
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-01440-1
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XXIX, 361 p. 196 illus., 172 illus. in color.)
Collana	Advances in Science, Technology & Innovation, IEREK Interdisciplinary Series for Sustainable Development, , 2522-8722
Disciplina	551
Soggetti	Natural disasters Pollution Water Hydrology Atmospheric science Natural Hazards Atmospheric Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Geoinformatics & Applications -- Land Use Land Cover Mapping & Urban Form Assessment -- Lidar Drone and Emerging Technologies Applications -- Rock Formations & Soil Lithology Mapping -- Vegetation Mapping impact Assessment -- Natural Hazards Monitoring & Mapping -- Ground Water Mapping & Assessment -- Coastal Management & Marine Environment -- Atmospheric Sensing.
Sommario/riassunto	This edited volume is based on the best papers accepted for presentation during the 1st Springer Conference of the Arabian Journal of Geosciences (CAJG-1), Tunisia 2018. The book compiles a wide range of topics addressing various issues by experienced researchers mainly from research institutes in the Mediterranean, MENA region, North America and Asia. Remote sensing observations can close gaps in information scarcity by complementing ground-based sparse data.

Spatial, spectral, temporal and radiometric characteristics of satellites sensors are most suitable for features identification. The local to global nature and broad spatial scale of remote sensing with the wide range of spectral coverage are essential characteristics, which make satellites an ideal platform for mapping, observation, monitoring, assessing and providing necessary mitigation measures and control for different related Earth's systems processes. Main topics in this book include: Geo-informatics Applications, Land Use / Land Cover Mapping and Change Detection, Emerging Remote Sensing Applications, Rock Formations / Soil Lithology Mapping, Vegetation Mapping Impact and Assessment, Natural Hazards Mapping and Assessment, Ground Water Mapping and Assessment, Coastal Management of Marine Environment and Atmospheric Sensing.
