Sommario/riassunto	A team of city-building professionals explain in straightforward terms how the idea of ecological sustainability can be embodied in the everyday life of homes, communities and cities to make a better future. The book considers - and answers - three questions: What does the global agenda of sustainable development mean for the urban spaces where most people live, work and move? Can we keep what we love about suburban life and still save the environment? And what new methods of planning and building will be needed in the 21st century? Rejecting both economic and environmental or

Titolo	The letter which was sent to the author of the doctrine of passive obedience and jure divino disproved, &c. answered and refuted [[electronic resource]] : wherein is proved, that monarchy was not originally from God. That kings are not by divine appointment, but that all government proceeds from the people. That the obedience required in Scripture, is to the laws of the land, and no otherwise. That resisting of arbitrary power is lawful. That the oath of allegiance to the late King James was dissolved before the Prince of Orange (our present King) landed. That upon the non-performance of an oath on one side, the other becomes void, is plainly prov'd from several examples in scripture. That protection is the only cause of allegiance, and that obedience or allegiance is due to the present government is proved from Scripture, law and reason; and those texts of scriptures which relate to government, or monarchy, are explained
