

1. Record Nr.	UNISA996390317803316
Autore	Wybard John
Titolo	Tactometria. Seu, Tetagmenometria. Or, The geometry of regulars practically proposed [[electronic resource]] : after a new, most artificial, exact and expeditious manner (together with the natural or vulgar, by way of mensurall comparison) and in the solids, not only in respect of magnitude or dimension, but also of gravity of ponderosity, according to any metal assigned. ... And withall, the like artificial practical geometry of regular-like solids (as I term them) in both the foresaid respects: and moreover, of a cylindricall body, for liquid or vessell-measure (commonly called by the name of gauging) as is for solid measure; ... And lastly, an A-tactometrie, or an appendix, for the most ready and exact discovering of the dimensionall quantity of any irregular kind of body, ... A work very usefull and delightfull for all such as are either ingenuously studious of, or necessarily exercised and employed in the practice of the art metricall. By J.W
Pubbl/distr/stampa	London, : printed by Robert Leybourn, for Nathaniel Brooks, at the Angel in Cornhill, M DC L. [1650]
Descrizione fisica	[28], 342 p
Soggetti	Geometry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"To the reader" is signed: J. Wybard, DM. Stained and torn with slight loss of print. Reproduction of the original in the Bodleian Library.
