| Titolo | Vituli labiorum. Or, A thanksgiving sermon, in commemoration of our great deliverance from the horrid Powder-Plot, 1605 [[electronic resource]] : And also of Gods merciful discovery of a bloody conspiracy against His Majesties Person, and the Protestant religion, 1678. Both intended by the papists. Preached at St. Peter's, Exon, Nov. 5. 1678. In prosecution whereof the Churches persecutions, foreign and domestick, by the hands of popish votaries, ever since the Reformation, are briefly recapitulated. Their charge of novelty on our church and religion is retorted. The absurdity of many of their doctrines and principles, and how destructive unto civil government, is detected.
