Nota di contenuto	""Contents""; ""Acknowledgments""; ""Introduction""; ""Trepanation of the Skull""; ""People Mentioned""; ""Places Mentioned""; ""MAP 1a€? Moscow""; ""MAP 2a€?Environs of Moscow""; ""MAP 3a€?USSR""; ""Notes""
Sommario/riassunto	"Sergey Gandlevsky is widely recognized as one of the leading living Russian poets and prose writers. His autobiographical novella Trepanation of the Skull is a portrait of the artist as a young late-Soviet man. At the center of the narrative are Gandlevsky's brain tumor, surgery, and recovery in the early 1990s. The story radiates out, relaying the poet's personal history through 1994, including his unique perspective on the 1991 coup by Communist hardliners resisted by Boris Yeltsin. Gandlevsky tells wonderfully strange but true episodes from the bohemian life he and his literary companions led. He also frankly describes his epic alcoholism and his ambivalent adjustment to marriage and fatherhood. Aside from its documentary interest, the book's appeal derives from its self-critical and shockingly honest narrator, who expresses himself in the densely stylized version of Moscow slang that was characteristic of the nonconformist intelligentsia of the 1970s and 1980s. Gandlevsky is a true artist of language who incorporates into his style the cadences of Pushkin and

Tiutchev, the folk wisdom of proverbs, and slang in all its varieties. Susanne Fusso's excellent translation marks the first volume in English of Sergey Gandlevsky's prose, and it will interest scholars, students, and general readers of Russian literature and culture of the late Soviet and post-Soviet periods"--

2. Record Nr.	UNISA996390540803316
Autore	Cromwell Oliver <1599-1658.>

Sommario/riassunto	This open access book constitutes the proceedings of the 13th International Conference on Human Haptic Sensing and Touch Enabled Computer Applications, EuroHaptics 2022, held in Hamburg, Germany, in May 2022. The 36 regular papers included in this book were carefully reviewed and selected from 129 submissions. They were organized in topical sections as follows: haptic science; haptic technology; and haptic applications.
