Titolo

Quakerism no popery, or, A particular answer to that part of Iohn Menzeis, professor of divinity in Aberdeen, (as he is called) his book, intituled Roma mendax [[electronic resource]] : Wherein the people called Quakers are concerned, whom he doth accuse as holding many popish doctrins, and as if Quakerism, (so he nick-names our religion,) were but popery-disguised. In which treatise his alleadged grounds for this his assertion, are impartially and fairly examined and confuted: and also his accusation of popery against us, justly retorted upon himself, and his bretheren.
