Sommario/riassunto	Fainting, the sudden and often unpredictable loss of consciousness, can be a frightening experience. While often benign, fainting can sometimes be the sign of serious illness. Recurrent fainting can significantly disrupt a person's life, and make them prone to injury and, on occasion, death. The Fainting Phenomenon, Second Edition is a valuable information resource for anyone whose life is affected by fainting. Written for the layperson, this book will help you: Understand the different reasons why people faint and their significance Seek proper medical a
