| Titolo                  | True nevvcs from Norvvich [[electronic resource] ] : being a certaine relation how that the cathedrall blades of Norwich (on the 22. of February 1641. being Shrove-tuesday, did put themselves into a posture of defence, because that the apprentices of Norwich (as they imagined) would have pulled down their organs. In which relation the foolishnesse of these cathedrall men are to be understood, and deserve to be laughed at for this their silly enterprise; there being no such cause to move them thereunto.
