Sommario/riassunto	In den ersten Jahren nach dem Zweiten Weltkrieg wurde Thüringen oft als eine Oase der Rechtsstaatlichkeit gepriesen. Petra Weber demonstriert, daß auch hier früh der Aufbau einer zweiten Diktatur auf deutschem Boden begann. Sie zeichnet nicht nur die Demontage der traditionellen Instanzenzüge der Justizverwaltung und die dort

durchgeführten personellen ";Säuberungsaktionen"; nach, sondern analysiert auch die durch die Wirtschaftsjustiz betriebene Revolution von oben und die eng mit den deutschlandpolitischen Auseinandersetzungen verknüpfte politische Strafjustiz.

Sommario/riassunto

Throughout its history, the American West symbolized a place of hope and new beginnings, where anything was possible, especially for men. However, the history written until the 1970s and 1980s excluded women. Sigrid Schönfelder illustrates how the American West served as a catalytic gold mine for many transformations for women. It draws on the life narratives of three healthcare providers whose devotion within the social reform movements of the long nineteenth century contributed significantly to shaping healthcare policies. Their stories show how women contributed to place-making in the West and served as role models for other women to enter the field of medicine.

This book provides a comprehensive analysis of jurisdiction and law applicable in cross-border insurance matters. The first book to address cross-border insurance cases from the perspective of European Union regulations, international conventions, and national laws applicable to insurance and insurance-related issues, it explores the concept of cross-border insurance issues and specific institutions related to insurance matters. In the process, it covers both classic private international law matters and specific issues, such as autonomous vehicles in cross-border cases, new technologies, and the Insurance Distribution Directive (IDD). Given its focus, the book offers a valuable asset for academics, judges, legal practitioners and insurance companies, and other institutions frequently dealing with cross-border insurance matters.
