

1. Record Nr.	UNINA9910146246703321
Autore	Sanchez Marcano José G
Titolo	Catalytic membranes and membrane reactors
Pubbl/distr/stampa	[Place of publication not identified], : Wiley VCH, 2002
ISBN	3-527-61642-X 1-280-56071-1 9786610560714 3-527-60198-8
Edizione	[1st ed.]
Descrizione fisica	1 online resource (257 pages)
Disciplina	660/.2832
Soggetti	Membrane reactors Catalysts Bioengineering Mechanical Engineering Engineering & Applied Sciences Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	Membrane reactors are an inherently multidisciplinary concept combining chemical reaction engineering, separation technology, materials science, and mathematical modelling aspects. They couple chemical reactions with membrane separation and provide a more compact and less capital intensive system design, but also often improved performance in terms of enhanced selectivity and/or yield. This authoritative work encompasses a broad treatment of the field, including the basic principles of membrane reactors, a comparative study of these and other classical reactors, modelling, industrial applications, emerging applications, etc. This is the first point of reference when it comes to applying the membrane reactor concept to research or to production: The novice can grasp the elementary concepts, and the professional can familiarize themselves with the most recent developments in the area. For the industrial practitioner

the book covers all important current, and potential future applications.

2. Record Nr.	UNISA996391399503316
Autore	Burnet Gilbert <1643-1715.>
Titolo	A discourse concerning transubstantiation and idolatry [[electronic resource] ] : being an answer to the Bishop of Oxford's plea relating to those two points
Pubbl/distr/stampa	London, : [s.n.], 1688
Descrizione fisica	36 p
Soggetti	Transubstantiation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	First published in two tracts, the first titled "A second part of the Enquiry into the Reasons offered by Sa. Oxon [Bp. Parker] for abrogating the test", the second, "A continuation of the second part of the Enquiry." Reproduction of original in Huntington Library.
