Gender aspectsProvisioning production sites; Towards a new narrative of salt production; 10 Conclusions and prospects; Salt today; The future of salt from the past; Appendix; References

Sommario/riassunto

Salt was a commodity of great importance in the ancient past, just as it is today. Its roles in promoting human health and in making food more palatable are well-known; in peasant societies it also plays a very important role in the preservation of foodstuffs and in a range of industries. Uncovering the evidence for the ancient production and use of salt has been a concern for historians over many years, but interest in the archaeology of salt has been a particular focus of research in recent times. This book charts the history of research on archaeological salt and traces the story of its prod

Note generali

Baptista B = Baptista Boazio.

Five full-sheet maps consisting of: (1) The "voyadge map", caption as above, (2) "Saint Iago", (3) "Saint Domingo", (4) "Cartagena", and (5) "Saint Augustine". Each has letterpress text; for states see STC. Imprint from STC.

The city maps are probably imported from Leiden, where they appeared

in "Expeditio Francisco Drake Equiti", 1588.

Often bound with various editions of: Bigges, Walter. A summarie and true discourse of Sir Francis Drakes West Indian voyage.

Identified as part of 3056.5 on reels 377 and 1745, and interleaved with 3056 on reel 1772.

Reproduction of the original in: British Library.
