Sommario/riassunto	"This important resource offers a comprehensive introduction to emerging and reemerging infectious disease, including the underlying mechanisms of microbial emergence, the technology used to detect them and the strategies available to contain them. The author describes the diseases and their causative agents that are major factors in the health of populations the world over. One of the main features of the book is its broad coverage of 25 different emerging infectious diseases, most of which are directly important to those practicing health in the U. S. The book is designed for students in epidemiology, global health, and biology"--

Nota di contenuto	Title page; Preface; About the Authors; Contents; Introduction; Migration Management; Migration and Security; Citizenship and Integration; Mediterranean in the International Context; Emerging Security Threats in the Region; Security: Prospects and Developments; Workshop Programme; Author Index
Sommario/riassunto	A demystification of the question of migratory risk is in order to foster an improved dialogue between south Europe countries and North Africa countries. Sending countries are affected by political crises, socio-economic instability, and illegal migration from North Africa; receiving countries practice discrimination in labour market.
