| Sommario/riassunto | America's public universities educate 80% of our nation's college students. But in the wake of rising demands on state treasuries, changing demographics, growing income inequality, and legislative indifference, many of these institutions have fallen into decline. Tuition costs have skyrocketed, class sizes have gone up, the number of courses offered has gone down, and the overall quality of education has decreased significantly. Here James C. Garland draws on more than thirty years of experience as a professor, administrator, and university president to argue that a |
