| Nota di contenuto | Answer Set Programming -- Foundations of Nonmonotonic Reasoning -- Datalog -- Queries Over Ontologies -- Proofs, Error-tolerance, and Rules -- Agents and Argumentation. |
| Sommario/riassunto | This book constitutes the proceedings of the International Joint Conference on Rules and Reasoning, RuleML+RR 2022, held in Berlin, Germany, during September 26–28, 2022. This is the 6th conference of a new series, joining the efforts of two existing conference series, namely "RuleML" (International Web Rule Symposium) and "RR" (Web |

Reasoning and Rule Systems). The 18 full research papers presented in this book were carefully reviewed and selected from 54 submissions. The papers cover the following topics: answer set programming; foundations of nonmonotonic reasoning; datalog; queries over ontologies; proofs, error-tolerance, and rules; as well as agents and argumentation.
