Titolo	[Baal-samz] or, Sovereigne balsome [[electronic resource]] : gently applied in a few weighty considerations (by way of quærie) for healing the distempers of such professors of religion as Satan hath wounded and drawn aside (under the notion of living in God) to the utter renouncing and casting off the use of divine ordinances, and Gospel-institutions of worship. With an apendix by way of postscript to such professors, wherein the most principall grounds upon which they build their practise, are fully answered and removed. And a catalogue of the errors that many of them hold since they left the ordinances, discovered. As also a true relation of Gods extraordinary working upon one of this way very lately in Plimouth, to the sight of his error, for the good of others published. // By Will. Bartlet, an unworthy minister of the Gospel, and lecturer at Bytheford in Devonshire
