Autore	Naylor James <1617?-1660.>
Titolo	Weaknes above wickednes, and truth above subtilty [[electronic resource]] : Which is the Quakers defence against the boaster and his deceitfull slanders. Clearly seen in an answer to a book called Quakers Quaking; devised by Jeremiah Ive's against the dispised contemptible people trampled on by the world, and scorned by the scornors. In which the deceits are turned into the deceivers bosome, and the truth cleared from the accuser. In much plainesse, that the simple may see and perceive, and come to be gathered to the Lamb, from amongst the armies of the wicked, who have now set themselves against the Lord, and sees it not. Also some queries to Jeremy Ive's touching his false doctrine and deceits. // By one who is called, James Naylor
