Sommario/riassunto

This Handbook is a fundamental reference work on polymer blends, covering all aspects: science, engineering, technology and application. It will appeal to anyone working in the field of blends, researchers as well as engineers. The Handbook is designed to be the source of information on all aspects of polymer blends. To this end the editor has put together an international group of highly respected contributors, each an expert in his chosen subjects. Polymer Blends Handbook, Volume 1 and Volume 2 is an exceptional source of information that will prove invaluable for anyone blending polymers. An electronic version of the Polymer Blends Handbook by Utracki is available.

Sommario/riassunto	Starting with the question concerning the discursive formation of architectural history, the chapters compiled in this book attempt to re-read the historiography of early modern architecture from the point of view of the theoretical work produced since the post-war era. Central to the objectives of the argument are the ways in which, firstly, architectural history differs from the traditions of art history, and, secondly, that the historical narrative works its autonomy through theoretical re...
