Sommario/riassunto	This book is an introduction to the literature and thought of the founders of the Shaykhiyya and the Babiyyah, two important religious movements in nineteenth-century Iran. The first part is an overview of the thought of Ahmad al-Ahsai and Kazim ar-Rashti, the progenitors of the Shaykhiyya, with a focus on their religious and philosophical teachings. The second part is an analysis of the early writings of Ali-Muhammad Shirazi (the Bab), the initiator of the Babiyyah. It contains a

survey of major concepts found in his works and addresses issues that have generated debate in the past, particularly the exact nature of his religious claim and its reception by his contemporaries. Finally, the book contains an edition of the Bab's Treatise on Specific Prophethood. This is the first scholarly edition of a work by the Bab to be published in the original language.

Sommario/riassunto	Best-Practice EVA tells the new EVA story from the ground up. Stewart covers EVA essentials-the classic economic profit version of EVA-in the first three chapters of the book. He shows readers how simple and intuitive EVA really is, how it is defined, and why it is better than all other measures of corporate profit. You discover how it naturally guides managers into making all the right decisions-the ones that will

truly maximize value. You see how to use it in profit-sharing bonus plans that create the powerful incentives of an owner. Later, Stewart introduces new ratios that make EV
