Autore	L. P (Laurence Price), <fl. 1625-1680?>
Titolo	A ready way to prevent svdden death [[electronic resource]] : being a brief and true relation of many sad misfortunes which have happened unto men, women, and children both in the citie of London, and in divers parts of the nation of England, which came through negligence, wilfulnesse, hardnesse of heart, presumption and carelesnesse. This was written and printed to the end that all people whatsoever that read or hear this little booke read, may learn to beware and prevent danger of sudden death before it comes upon them. Reader peruse this little book, and heedfully upon it look; it may preserve thy soul from strife, and through Gods blessing save thy life. // This book was written by Laurence Price, this present year 1655
