Note generali	Refereed/Peer-reviewed "The journal of natural and social philosophy."
Sommario/riassunto	"Cosmos and History is a peer-reviewed, open-access journal of natural and social philosophy. It serves those who see philosophy's vocation in questioning and challenging prevailing assumptions about ourselves and our place in the world, developing new ways of thinking about physical existence, life, humanity and society, so helping to create the future insofar as thought affects the issue. Philosophy so conceived is not identified with the work of professional philosophers, and the journal welcomes contributions from philosophically oriented thinkers from all disciplines."
