Titolo	The inrichment of the weald of Kent. Or A direction to the husbandman, for the true ordering, manuring, and inriching of all the grounds within the wealds of Kent, and Sussex; and may generally serve for all the grounds in England of that nature: as 1. Shewing the nature of wealdish ground, comparing it with the soyl of the shires at large. 2. Declaring what the marl is, and the several sorts thereof, and where it is usually found. 3. The profitable use of marl, and other rich manuring, as well in each sort of arable land, as also for the increase of corn and pasture through the kingdome. Painfully gathered for the good of this island, by a man of great eminence and worth, but revised, inlarged, and corrected with the consent, and by conference with the first author.
