Sommario/riassunto	Re-evaluating the period in Victorian illustration known as 'The Sixties,'

this volume examines figures such as Frederick Sandys, Ford Madox Brown and George John Pinwell to consider the impact of illustration on the act of reading and the sensibilities of the reading public. The collection offers a detailed and provocative analysis of the production, consumption and place of illustration within the broader contexts of mid-Victorian culture.

Sommario/riassunto	This comprehensive survey of Chinese military history is the only book in English to span the significant years from 900 - 1795. Peter Lorge questions current theories on China's relationship to war, and argues that war was the most important tool used by the Chinese in building and maintaining their empire.Emphasizing the relationship between the

military and politics, chapters are organised around specific military events and, Lorge argues, the strength of territorial claims and political impact of each dynasty were determined by their military capacity. Ideal as a course ado
