Sommario/riassunto	This book contains selected revised full papers from the 15th International Workshop on Electromagnetic Nondestructive Evaluation (ENDE), which was held in Szczecin, Poland, in June 2010. This annual workshop aims to bring together scientists researching various aspects of ENDE and engineers with experience of practical problems and industrial applications in the field. The 15th workshop attracted ninety nine participants from eleven European countries and from Algeria, Australia, Brazil, China, India, Japan, Korea and the United States. They reflect this aim, as well as the importance of the
