Titolo	The black non-conformist, discover'd in more naked truth [[electronic resource]] : proving, that excommunication, confirmation, the two great Episcopal appurtenances & diocesan bishops, are not (as now in use) of divine, but human make and shape, and that not only some lay-men, but all the keen-cringing clergy are non-conformists ... : also a libel, and answer (thereunto) fitted to every man's case (be it what it will) that is cited to ecclesiastical courts, whose shallow foundation is unbarred, and a true table of ecclesiastical court fees, as it was return'd into the star-chamber, Anno Domini 1630, by the ecclesiastical fellows themselves, and compar'd with the statutes : also concerning the unlawfulness of granting licences to marry, Quakers-marriages, folly, as well as other evil consequences of that new law-maxim, viz. that no non-conformists ought to be jury-men : shewing also, that, religion, religion, that should have been the world's great blessing, is become the plague of mankind, and the curse of Christendom ... // by Edm. Hickeringill .
