THE ART OF HOPE; ACKNOWLEDGMENTS; NOTES; SELECT BIBLIOGRAPHY; INDEX; ABOUT THE AUTHOR
Sommario/riassunto	From the centuries-long prejudices against Catholics in America, to the efforts of Fascism, Communism and modern terrorist organizations to "break the cross and spill the wine," this book brings to life the Catholic Church's role in world history, particularly in the realm of diplomacy. The Global Vatican captures the braided nature of religious and political power and the complexities, battles, and future prospects for the

relationship between the Holy See and the United States as both face challenges old and new.

Sommario/riassunto	The early modern theories of religious toleration that were so

influential on our own ways of thinking about religion and tolerance were ripe with paradox, ambiguity, inconsistency, hidden flaws, and blind spots. The scholars in this volume explore those weak points in the hope that identifying their causes may help us strengthen our own ideas and promote toleration in ways that can avoid those paradoxes.
