Soggetti	Lightweight construction Space frame structures - Materials Building materials Building papers Paperboard Waste paper - Recycling Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Title page; Contents; Cardboard Technical Research and Developments at Delft University of Technology; Cardboard in Architecture; an Overview; Paper Leaves; The Design and Building Process of a Cardboard Pavilion; A House of Cardboard; Structural Engineering and Design in Paper and Cardboard; Application of Cardboard in Partitioning; Mechanical Behaviour of Cardboard in Construction; The Cardboard Dome as an Example of an Engineers Approach; Epilogue; Author Details

Sommario/riassunto The Department of Building Technology at the Faculty of Architecture at TU Delft studies and develops cardboard as a potential building material on a comprehensive basis. An exploratory phase from 2003 to 2005 was concluded by an international symposium. This title comprises the report on that symposium.

Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (89 pages)
Collana	Expert Briefs, , 2511-0594
Disciplina	415 410.1835
Soggetti	Cognitive grammar Semantics Psycholinguistics Cognitive Linguistics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- 1. Early Investigations -- 2. Conceptual Underpinnings -- 3. Grammar -- 4. Extensions of the Theory -- 5. New Directions.
Sommario/riassunto	This volume offers an introduction to cognitive linguistics, written by authors who were engaged in the field from its beginnings. It starts by reviewing these early studies and provides an overview of the sources and conceptual underpinnings of the theory. This is followed by a description of how cognitive linguistics has been (and continues to be) applied in all subcomponents of language study. From the point of view of the history of Linguistics, it presents the evolution of the theory over time in a range of directions, including its view of the nature of Language itself, as well as how it is acquired. The final chapter provides an overview of relatively new approaches, in particular those which are provoking a significant challenge to the generative account.
