Nota di contenuto	Introduction: Transportation Development in China 13 -- Rail Transport -- Roads and Highways -- Four Civil Aviation -- Maritime Transport -- Inland Waterway Transport -- Pipeline Transport -- High-speed Rail -- Subway -- Logistics -- Tourism Transport -- Tourism Transport -- Coal Transport.
Sommario/riassunto	This book provides a detailed introduction to the history and development of China's railways, highways, civil aviation, shipping, inland water transportation, tourism transportation, and coal transportation since the reform and opening up 40 years ago. With the development of transportation technology, the Internet, and e-commerce, China's transportation intelligence, green technology, environmental protection, and network level have continued to improve. This book details the achievements of China's transportation industry and how it effectively promotes and supports China's economic growth. It proposes continuing to rapidly promote the construction of infrastructure such as high-speed railways, highways, bridges, ports, and airports.
