Sommario/riassunto

This series of HANDBOOKS OF LINGUISTICS AND COMMUNICATION
 SCIENCE is designed to illuminate a field which not only includes
 general linguistics and the study of linguistics as applied to specific
 languages, but also covers those more recent areas which have
 developed from the increasing body of research into the manifold
 forms of communicative action and interaction. For "classic"
 linguistics there appears to be a need for a review of the state of the art

which will provide a reference base for the rapid advances in research undertaken from a variety of theoretical standpoints, while in the m

Sommario/riassunto

This book constitutes the refereed proceedings of the 7th International Symposium on Security in Computing and Communications, SSCC 2019, held in Trivandrum, India, in December 2019. The 22 revised full papers and 7 revised short papers presented were carefully reviewed and selected from 61 submissions. The papers cover wide research fields including cryptography, database and storage security, human and societal aspects of security and privacy.
