Claims. 1 v. 1st Cong., 2nd sess.-17th Cong., Feb. 5, 1790-Mar. 3, 1823 -- class X. Miscellaneous. 2 v. 1st Cong.-17th Cong., Apr. 17, 1789-Mar. 3, 1823.

## Sommario/riassunto

"The American State Papers, comprising a total of thirty-eight physical volumes, contain the legislative and executive documents of Congress during the period 1789 to 1838. The collection includes documents that cover the critical historical gap from 1789 to the printing of the first volume of the U.S. Serial Set in 1817. The books are arranged into ten topical classes or series."

Sommario/riassunto	The increase in decentralized, volatile electricity generation as result of the German energy system transformation causes congestions in electricity grids. IT networking and coordination of producers and consumers in smart grids promises a solution to these problems. In this context, this work presents an energy management approach that approximates specified, aggregated power profiles. The approach uses power forecasts and flexibilities and takes network restrictions into account.
