

1. Record Nr.	UNINA9910688454203321
Titolo	Microalgae : from physiology to application // edited by Milada Vitova
Pubbl/distr/stampa	London : , : IntechOpen, , 2020
Descrizione fisica	1 online resource (244 pages)
Disciplina	579.8
Soggetti	Microalgae
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>The term microalgae is often used in the algal research community to collectively describe microscopic algae and cyanobacteria. Research of microalgae has expanded enormously, namely because of their significant commercial potential. The thorough knowledge of the physiology of microalgae must precede any commercial exploitation. We have to understand the mechanisms underlying the physiological and biochemical processes in the algal cells. The book Microalgae - From Physiology to Application covers major aspects of microalgae physiology and the possible applications in the sphere of biotechnology. This book gives a comprehensive overview of what is known about microalgae growth and production, secondary metabolites, and development of new species and products for commercialization. This volume should allow readers at all levels an entry into the exciting world of algal research.</p>

2. Record Nr.	UNISA996404408703316
Titolo	Umática : revista sobre creacion y análisis de la imagen
Pubbl/distr/stampa	Málaga : , : Grupo Umática, Universidad de Málaga, , [2018]-
ISSN	2659-8574
Descrizione fisica	1 online resource : illustrations
