| Sommario/riassunto | Gli eventi caotici del 395-400 d. C. segnarono una svolta epocale per l'Impero Romano e il suo rapporto con i popoli barbari sotto e oltre il suo comando. In questo studio magistrale, Alan Cameron e Jacqueline Long propongono una riscrittura completa della storia sociale e politica di questi anni. La nostra conoscenza del periodo ci viene in parte da Sinesio di Cirene, che ha registrato la sua visione degli eventi nei suoi De regno e De Providence. Ridimensionando queste opere, Cameron e Long offrono una nuova e vitale interpretazione delle interazioni tra pagani e cristiani, goti e romani. Sebbene l'interesse degli autori sia nelle particolarità degli eventi, il volume trasmette un meraviglioso senso del tempo e del luogo. La confutazione di Cameron e Long della cultura moderna, che pervade la narrazione, accresce il coinvolgimento del lettore con le complessità dell'interpretazione. Il risultato è un sofisticato racconto di un periodo di cambiamento cruciale nel rapporto dell'Impero Romano con il mondo non romano. |
