Saunders Richard <1613-1675.>
1681. Apollo Anglicanus, the English Apollo [[electronic resource]]: assisting all persons in the right understanding of this years revolution, as also of things past, present, and to come : with necessary tables plain and useful, a twofold kalendar viz. Julian or English, Gregorian or foreign computations, more plain and full than any other : with the sun and moons risings and settings daily observ'd, with that accuracy that will rarely be found in most other almanacks : being the first after bissextile, or leap year : with a necessary and useful discourse of the year // by Richard Saunders student in the physical- coelestial sciences
London, : Printed for the Company of Stationers, 1681
[48] p. : ill. (woodcut)
Astrology Almanacs. Ephemerides.
