Profound Offense and Religion in Secular Democracies: An Australian Perspective -- 10. Blasphemy versus Incitement: An International Law Perspective -- Afterword: Blasphemy beyond Modernism -- Contributors -- Index
Sommario/riassunto	Humans have been uttering profane words and incurring the consequences for millennia. But contemporary events-from the violence in 2006 that followed Danish newspaper cartoons depicting the Prophet Mohammed to the 2012 furor over the Innocence of Muslims video-indicate that controversy concerning blasphemy has

reemerged in explosive transnational form. In an age when electronic media transmit offense as rapidly as profane images and texts can be produced, blasphemy is bracingly relevant again. In this volume, a distinguished cast of international scholars examines the profound difficulties blasphemy raises for modern societies. Contributors examine how the sacred is formed and maintained, how sacrilegious expression is conceived and regulated, and how the resulting conflicts resist easy adjudication. Their studies range across art, history, politics, law, literature, and theology. Because of the global nature of the problem, the volume's approach is comparative, examining blasphemy across cultural and geopolitical boundaries.

Nota di contenuto	Frontmatter -- Contents -- Citizenship in flux: Introduction and a conceptual approach -- Exclusive citizenship as basis for chauvinistic nationalism -- Public perception of European Union citizenship at the local level -- Political contestation and domestic politics in EU financial regulation -- Formal citizenship in European constitutions -- Citizenship regimes and diaspora politics: The case of politically involved Turkish migrants in Germany -- Borders of Citizenship? Biopolitics and differential inclusion in local fields of labor and asylum -- Activist citizens beyond dichotomies: Migrant rights activism in Hamburg -- Who belongs to ›the people‹? The societal boundaries of national and European notions of citizenship -- Can nationalists be democratic citizens in the age of global migration? Boundaries of political community and their impact on liberal orientation in EU societies -- About the authors
Sommario/riassunto	Traditionally, citizenship has been defined as the legal and political link between individuals and their democratic political community. However, traditional conceptions of democratic citizenship are currently challenged by various developments like migration, the rise of populism, increasing polarization, social fragmentation, and the challenging of representative democracy as well as developments in digital communication technology. Against this background, this peer

reviewed book reflects recent conceptions of citizenship by bringing together insights from different disciplines, such as political science, sociology, economics, law, and history.
