Note generali

Refereed/Peer-reviewed

2012-2020: edited and released by: Tsinghua University and Brill.

2021- : edited and released by: Tsinghua University and SAGE.

Sommario/riassunto

"The International Journal of Chinese Education (IJCE) is a fully peer-reviewed and open access journal which publishes research articles on China and Chinese education. This journal is financially supported by Tsinghua University and therefore does not charge an article processing charge for open access publication. This journal flipped to open access on 1 January 2021. The International Journal of Chinese Education (IJCE) aims to improve education research and development in ways relevant to China and Chinese education. IJCE welcomes empirical, theoretical and technical studies. Articles can address all China-relevant education research, policy and practice, including comparative and multi-disciplinary studies. IJCE covers all formal and less formal areas and levels of education."--taken from publisher website (SAGE) viewed April 4, 2023.
