

1. Record Nr.	UNISA996418213503316
Titolo	Responsible Design, Implementation and Use of Information and Communication Technology [[electronic resource]] : 19th IFIP WG 6.11 Conference on e-Business, e-Services, and e-Society, I3E 2020, Skukuza, South Africa, April 6–8, 2020, Proceedings, Part I / / edited by Marié Hattingh, Machdel Matthee, Hanlie Smuts, Ilias Pappas, Yogesh K. Dwivedi, Matti Mäntymäki
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-44999-8
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (611 pages) : illustrations
Collana	Information Systems and Applications, incl. Internet/Web, and HCI ; ; 12066
Disciplina	006.754
Soggetti	E-commerce Application software Computer organization Artificial intelligence Coding theory Information theory e-Commerce/e-business Information Systems Applications (incl. Internet) Computer Systems Organization and Communication Networks Artificial Intelligence Coding and Information Theory Computer Appl. in Social and Behavioral Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Block Chain -- A Framework for the Adoption of Blockchain-Based e-Procurement Systems in the Public Sector -- Blockchain Technology for Empowering Patient-centred Healthcare: A Pilot study -- Are cryptocurrencies disruptive? A Causal Layered Analysis-based framework to examine technological change -- Fourth Industrial Revolution -- The incompatibility of Smart Manufacturing for SMMEs: A

Systematic Review -- Using Theories To Design a Value Alignment Model for Smart City Initiatives -- Complementary Partnerships for the 4IR: A Relational Capability Maturity Model -- The Role of Digital Connectivity in Supply Chain and Logistics Systems: A Proposed SIMPLE Framework -- Industry 4 from an Organisational Perspective: A Conceptual Model -- SMART city and economy: bibliographic coupling and co-occurrence -- Robotic Process Automation and Consequences for Knowledge Workers; a Mixed-Method Study -- Co-creation for digitalization: A study of co-creation in Norwegian business clusters -- A Framework for Industrial Internet of Things -- eBusiness -- Cybersecurity Readiness of e-tail Organisations: A Technical Perspective -- Consumer Mobile Shopping Acceptance Predictors and Linkages: A Systematic Review and Weight Analysis -- Social commerce adoption predictors: A review and weight analysis -- Digital Entrepreneurship in Business Enterprises: A Systematic Review -- Assessing The Role of Trust in Merchant Adoption of Mobile Payments in Ghana -- The influence of price comparison websites on online switching behavior: A consumer empowerment perspective -- Online Banking Service Quality: An E-S-QUAL Analysis -- The Characteristics of Digital Entrepreneurship and Digital Transformation: a Systematic Literature Review -- Mapping the intellectual progress in e-Business, e-Services and e-Society from 2001 to 2019 -- Weight analysis of the factors affecting eWOM providing behavior -- An Intelligent Marketspace Mobile Application for Marketing Organic Products -- How Corporates in South Africa are using Serious Games in Business -- Business Processes -- Towards a theoretical framework for IT-enabled and IT-enforced corporate governance compliance using business process management systems -- The Role of Information Technology in Fintech Innovation: Lessons from the New York City Ecosystem -- Governance challenges constraining Business Process Management: the case of a large South African financial services corporate -- Overcoming the Ivory Tower: A Meta Model for Maturity Models -- Towards a Strategic Model for Safeguarding the Preservation of Business Value during Human Interactions with Information Systems -- How to measure digitalization? A critical evaluation of Digital Maturity Models -- Business Process Re-engineering and Agile Software Development: Applying the Story-Card Method -- The Zachman Framework for Enterprise Architecture: an Explanatory IS Theory -- A Scoping Review of the Application of the Task-Technology Fit Theory -- A Broker-based Framework for the Recommendation of Cloud Services: A Research Proposal -- Big Data and Machine Learning -- Unsupervised Anomaly Detection of Healthcare Providers using Generative Adversarial Networks -- Data Governance as Success Factor for Data Science -- Happiness and Big Data – Theoretical foundation and empirical insights for Africa -- Predicting Information Diffusion on Twitter A Deep Learning Neural Network Model using Custom Weighted Word Embedding Features -- Requirements of Data Visualization Tools to Analyze Big Data: A Structured Literature Review -- Implementation considerations for Big Data Analytics (BDA): A Benefit Dependency Network approach -- A model for evaluating big data analytics tools for an organisational purposes -- ICT and Education -- Development of a Quantitative Instrument to Measure Mobile Collaborative Learning (MCL) using WhatsApp: The Conceptual Steps -- Understanding Rural Parents' Behavioural Intention to Allow their Children to Use Mobile Learning (m-Learning) -- May the Change Be with You: The Need for New Roles to Support Flipped Classroom Development -- MSIS 2016: What are we teaching in Sub-Saharan Africa? -- Requirements for an eModeration system in private schools in South Africa -- Ready to go?

Schools' preparedness for teaching and learning within a one-to-one laptop program -- Agile Development of a Flipped Classroom Course.

Sommario/riassunto

This two-volume set constitutes the proceedings of the 19th IFIP WG 6.11 Conference on e-Business, e-Services, and e-Society, I3E 2020, held in Skukuza, South Africa, in April 2020.* The total of 80 full and 7 short papers presented in these volumes were carefully reviewed and selected from 191 submissions. The papers are organized in the following topical sections: Part I: block chain; fourth industrial revolution; eBusiness; business processes; big data and machine learning; and ICT and education Part II: eGovernment; eHealth; security; social media; knowledge and knowledge management; ICT and gender equality and development; information systems for governance; and user experience and usability *Due to the global COVID-19 pandemic and the consequential worldwide imposed travel restrictions and lockdown, the I3E 2020 conference event scheduled to take place in Skukuza, South Africa, was unfortunately cancelled.
