   Sommario/riassunto The LNAI 12299 constitutes the papers of the 18th International
                       Conference on Artificial Intelligence in Medicine, AIME 2020, which will
                       be held online in August 2020. The 42 full papers presented together
                       with 1short papers in this volume were carefully reviewed and selected
                       from a total of 103 submissions. The AIME 2020 goals were to present
                       and consolidate the international state of the art of AI in biomedical
                       research from the perspectives of theory, methodology, systems, and
                       applications.
