Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2001
ISBN	3-540-45336-9
Edizione	[1st ed. 2001.]
Descrizione fisica	1 online resource (XII, 408 p.)
Collana	Lecture Notes in Computer Science, , 0302-9743 ; ; 2252
Disciplina	004.019
Soggetti	Computer science User interfaces (Computer systems) Application software Multimedia information systems Artificial intelligence Computers and civilization Popular Computer Science User Interfaces and Human Computer Interaction Information Systems Applications (incl. Internet) Multimedia Information Systems Artificial Intelligence Computers and Society
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Keynote Presentations -- Intelligent Adaptive Interface -- Digital City: Bridging Technologies and Humans -- Detection, Recognition, and Expression Analysis of Human Faces -- Digital Interactivity: Human-Centered Robotics, Haptics, and Simulation -- Smart Digital Media -- Smart Media: Empower Media with Active Data Hiding -- Congestion Prospect of Network Traffics by Fluctuation of Internet Transmission Time -- Naturalistic Human-Robot Collaboration Mediated by Shared Communicational Modality in Teleoperation System -- Web

Personalization -- Web Personalization Techniques for E-commerce --
 A Shopping Negotiation Agent That Adapts to User Preferences --
 Combining Meta-level and Logic-Based Constructs in Web
 Personalization -- Web Personalisation - An Overview -- Business-
 Oriented Web Personalization: A Decision-Making Approach -- A
 Personalized Interface Agent with Feedback Evaluation -- Active
 Interfaces -- VHML - Directing a Talking Head -- Believable and
 Interactive Talking Heads for Websites: MetaFace and MPEG-4 --
 Building Multi-modal Personal Sales Agents as Interfaces to E-
 commerce Applications -- Feature vs. Model Based Vocal Tract Length
 Normalization for a Speech Recognition-Based Interactive Toy -- A
 Genetic Algorithm Based Approach to the Synthesis of Three
 Dimensional Morphing Sequences -- Autonomous Agent Approaches
 -- A COMPARATIVE STUDY OF ANT-BASED OPTIMIZATION FOR
 DYNAMIC ROUTING -- What Kind of Cooperation Is Required by
 Situated Agents? The Principle of Situated Cooperation -- A Fault-
 Tolerant Scheme of Multi-agent System for Worker Agents --
 Decentralized Control of Multi-agent Systems Based on Modal Logics
 and Extended Higher Order Petri Nets -- Facial Image Processing -- An
 Improved Foreground Extraction Approach -- Object Detection
 Simulating Visual Attention -- Fast Face Detection Using Neural
 Networks and Image Decomposition -- Modeling of Facial Expressions
 Using NURBS Curves -- AMT-Supported Commerce, Business, Learning,
 and Health Care -- Evolutionary Negotiation in Agent-Mediated
 Commerce -- Optimizing Agent-Based Negotiations with Branch-and-
 Bound -- Engineering Fuzzy Constraint Satisfaction Agents for Multi-
 user Timetable Scheduling -- An XML-Based Distance Learning System
 Capable of Conveying Information on "LECTURE EVENT" -- An
 Authoring Tool for Building Adaptive Learning Guidance Systems on the
 Web -- A Framework of Caring Interaction by a Network Model of
 Client's Concepts Based on a Nursing Theory and Naive Psychological
 Approaches -- Tools and Techniques -- Parallel Design Based on
 Neural Network -- Fair Play Protocol -- Collaborative Filtering Methods
 for Binary Market Basket Data Analysis -- An Implementation and
 Design of COMOR System for OOM Reuse -- Automatic Aircraft
 Recognition Using Maximum Likelihood Ratio Test -- Algorithms -- A
 Machine Learning Algorithm Based on Supervised Clustering and
 Classification -- Visualization of a Parallel Genetic Algorithm in Real
 Time -- The Rise and Fall of Napster - An Evolutionary Approach -- On
 the Elaboration of Hand-Drawn Sketches -- The Introduction of Three
 Methods Generating Stereoscopic Image1 -- Kansei-Oriented Image
 Retrieval -- ICSPACE — An Internet Cultural Space.

Sommario/riassunto

The past few years have witnessed rapid scientific and technological developments in human-centered, seamless computing environments, interfaces, devices, and systems with applications ranging from business and communication to entertainment and learning. These developments are collectively best characterized as Active Media Technology (AMT), a new area of information technology and computer science that emphasizes the proactive, seamless roles of interfaces and systems as well as new digital media in all aspects of human life. This volume contains the papers presented at the Sixth International Computer Science Conference: Active Media Technology (AMT 2001), the first conference of its kind, capturing the state of research and development in AMT and the latest architectures, prototypes, tools, and fielded systems that demonstrate or enable AMT. The volume is organized into the following eight parts: I. Smart Digital Media; II. Web Personalization; III. Active Interfaces; IV. Autonomous Agent Approaches; V. Facial Image Processing; VI. AMT-Supported Commerce, Business, Learning, and

Transportons-nous quelque cinq cents ans en arrière. Les idées nouvelles remontent de la Péninsule à la faveur des Guerres d'Italie et se diffusent dans les cercles lettrés. La percée de l'hellénisme se fait sentir, non sans susciter de vives réactions de l'Église. L'historiographie française connaît des mutations décisives, avec Thomas Basin et Philippe de Commines, même si la tendance dominante reste aux grandes chroniques et histoires nationales. Chez le prélat Claude de Seyssel, conseiller du roi Louis XII, ces trois courants majeurs s'agrègent. Savoyard par ses origines, Seyssel vit à la charnière de deux mondes, la France et l'Italie, et de deux cultures. Élève et admirateur des humanistes de la Péninsule, il s'intéresse à l'Antiquité et à la redécouverte des historiens grecs. Leurs récits de conflits, de guerres civiles et de conquêtes peuvent fournir, selon lui, des enseignements aux princes de son temps. C'est sur ces bases que l'évêque de Marseille devient le premier théoricien politique français moderne, avec sa grande œuvre, *La Monarchie de France*, rédigée en 1515, et strictement contemporaine du Prince de Machiavel et de l'Utopie de More. Penseur de premier plan, Seyssel fut aussi diplomate, épistolier, traducteur, historien, juriste et théologien. Et pourtant, aucune monographie ne lui a jamais été consacrée en France jusqu'au présent ouvrage. Les études réunies ici, signées des meilleurs spécialistes actuels, se penchent sur son itinéraire et sa pensée, en rendant accessibles des textes et des images rarement étudiés. Elles entendent remettre au jour une pensée profondément originale et injustement oubliée. En même temps, c'est toute la période charnière entre Moyen Âge et Renaissance qui s'en trouve éclairée, cet « automne du Moyen Âge » que l'historiographie préfère appeler désormais l'époque des Renaissance.

Der wachsende Einfluss der Internetplattformen des 21. Jahrhunderts in wirtschaftlicher, gesellschaftlicher und politischer Hinsicht hat eine Diskussion über die angemessene Regulierung dieser Konzerne ausgelöst. Im Zentrum dieser Debatte steht das Kartellrecht – das Rechtsgebiet, das zur Kontrolle marktbeherrschender Unternehmen geschaffen wurde. Die Bestimmung des im Kartellrecht fundamentalen Begriffes der marktbeherrschenden Stellung steht in der Rechtsanwendung bei Internetplattformen vor zahlreichen Herausforderungen, von der Unentgeltlichkeit der Leistungen bis hin zur Mehrseitigkeit der Geschäftsmodelle. Die vorliegende Arbeit zerlegt den Begriff der marktbeherrschenden Stellung in seine Teile und zeigt auf, inwiefern die Methodik einer Anpassung an die digitale Wirtschaft bedarf. Dies geschieht unter Einbeziehung der Erkenntnisse der Rechtsökonomie sowie der Rechtsordnungen Deutschlands, der Europäischen Union und der USA.
