   Sommario/riassunto   This book constitutes selected and revised papers from the First
                        International Conference on Cybersecurity in Emerging Digital Era,
                        ICCEDE 2020, held in Greater Noida, India, in October 2020. Due to the
                        COVID-19 pandemic the conference was held online. The 9 full papers
                        and 2 short papers presented in this volume were thoroughly reviewed
                        and selected from 193 submissions. The papers are organized in
                        topical sections on cyber security issues and challenges in emerging
                        digital era; security resilience in contemporary applications.
