    Sommario/riassunto   This book constitutes the refereed proceedings of the 4th
                          Mediterranean Conference on Pattern Recognition and Artificial
                          Intelligence, MedPRAI 2020, held in Hammamet, Tunisia, in December
                          2020. Due to the COVID-19 pandemic the conference was held online.
                          The 24 revised papers presented were thoroughly reviewed and

selected from 72 submissions. The papers are covering the topics of recent advancements in different areas of pattern recognition and artificial intelligence, such as statistical, structural and syntactic pattern recognition, machine learning, data mining, neural networks, computer vision, multimedia systems, information retrieval, etc.
