   Sommario/riassunto This book constitutes selected, revised and extended papers of the 6th
                       International Conference on Geographical Information Systems Theory,
                       Applications and Management, GISTAM 2020, held in Prague, Czech
                       Republic, May 2020. Due to the COVID-19 pandemic the conference
                       was held online. The 9 revised full papers presented were carefully
                       reviewed and selected from 62 submissions. The papers are centered

on urban and regional planning; water information systems; geospatial information and technologies; spatio-temporal database management; decision support systems; energy information systems; GPS and location detection.
