|-------------------------|---|
| 1. Record Nr.           | UNISA996464544103316  |
| Titolo                  | Chatbot research and design : 5th international workshop, conversations 2021, virtual event, November 23-24, 2021, revised selected papers // edited by Asbjør Følstad, [and six others]  |
| Pubbl/distr/stampa      | Cham, Switzerland : , : Springer, , [2022]<br>©2022   |
| ISBN                    | 3-030-94890-0   |
| Descrizione fisica      | 1 online resource (217 pages)   |
| Collana                 | Lecture Notes in Computer Science ; ; v.13171   |
| Disciplina              | 005.437   |
| Soggetti                | Artificial intelligence   |
| Lingua di pubblicazione | Inglese   |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| Nota di bibliografia    | Includes bibliographical references and index.  |
| Nota di contenuto       | Intro -- Preface -- Organization -- Contents -- Chatbot User Insight -- Understanding Users' Acceptance of Chatbots: An Extended TAM Approach -- 1 Introduction -- 2 Theoretical Framework and Hypotheses Development -- 2.1 TAM -- 2.2 Compatibility, Trust, and Perceived Enjoyment -- 2.3 Hypotheses -- 3 Research Method -- 3.1 Measurement Development, Procedure and Data Collection -- 4 Data Analysis and Results -- 4.1 Partial Least Square (PLS) Path Modeling -- 4.2 Measurement Model (Construct Validity) -- 4.3 Structural Model -- 4.4 Content Analysis of Consumers' Attitudes Toward the Chatbot -- 5 Discussions and Implications -- 5.1 Theoretical Implications -- 5.2 Practical Implications -- 6 Limits and Future Research -- Appendix -- References -- Expert Insights for Designing Conversational User Interfaces as Virtual Assistants and Companions for Older Adults with Cognitive Impairments -- 1 Introduction and Background -- 1.1 Related Work -- 2 Methods -- 2.1 Participants -- 2.2 Materials -- 2.3 Procedure and Analysis -- 3 Results: Pros and Cons of CUIs for Older Adults -- 3.1 CUI's Level of Expertise -- 3.2 CUI's Emotional Intelligence/Importance of Personalization -- 3.3 Most Promising CUI Features as Expressed by Experts -- 3.4 Factors of User Acceptance -- 4 Discussion and Conclusions -- References -- Understanding People's Expectations When Designing a Chatbot for Cancer Patients -- 1 Introduction -- 2 |

Background -- 2.1 Chatbots for Cancer Patients -- 2.2 Attribution of Human Characteristics to Chatbots -- 2.3 Participatory Design in Chatbots -- 3 Methodology -- 3.1 Participants -- 3.2 Study Design -- 4 Results and Discussion -- 4.1 Activity 1 -- 4.2 Activity 2 -- 4.3 Activity 3 -- 5 Limitations of the Study -- 6 Conclusion and Future Work -- References.

Individualized Learning Patterns Require Individualized Conversations - Data-Driven Insights from the Field on How Chatbots Instruct Students in Solving Exercises -- 1 Introduction -- 2 Theoretical Background -- 2.1 Related Research on Educational Chatbots -- 2.2 Theoretical Foundations of Chatbot-Based Instruction -- 3 Research Design -- 3.1 Field Setting -- 3.2 Demographic Background of Study Participants -- 3.3 Chatbot Software Integrated into the Programming Course -- 3.4 Data Preprocessing and Analysis -- 4 Results -- 4.1 Aggregated Chatbot Interaction Statistics -- 4.2 Comparing Interactions by Task Difficulty -- 4.3 Identifying Different Types of User Groups -- 5 Discussion and Implications -- 6 Conclusion -- References -- Chatbots Supporting Collaboration and Social Interaction -- How Can a Chatbot Support Human Resource Management? Exploring the Operational Interplay -- 1 Introduction -- 2 Background -- 2.1 Human Resource Management -- 2.2 Chatbots for Organizational Purposes -- 2.3 An Organizational Perspective on Chatbots? -- 3 Research Questions -- 4 Method -- 4.1 Research Design -- 4.2 Participants and Recruitment -- 4.3 The HRM Chatbots -- 4.4 Interview Guide and Process -- 4.5 Analysis -- 5 Results -- 5.1 Organization's Motivations for Taking up a Chatbot for the HRM Function -- 5.2 How the Chatbot Supports the HRM Function -- 5.3 How the Chatbot Affects the HRM Function -- 5.4 The HRM Chatbot in the Wider Organizational Context -- 6 Discussion -- 6.1 The Operational Interplay Between the Chatbot and the HRM Function -- 6.2 Implications -- 6.3 Limitations and Future Work -- References -- How to Find My Task? Chatbot to Assist Newcomers in Choosing Tasks in OSS Projects -- 1 Introduction -- 2 Related Work -- 3 Method -- 3.1 Materials -- 3.2 Procedures -- 4 Results -- 4.1 Quantitative Analysis.

4.2 Qualitative Analysis of the Open-Questions -- 5 Discussion -- 5.1 Limitations -- 6 Conclusion -- References -- Incorporating Social Practices in Dialogue Systems -- 1 Introduction -- 2 Related Work -- 3 Extending the Dialogue Management Systems -- 3.1 Context -- 3.2 Meaning -- 3.3 Expectations -- 3.4 Activities -- 4 Exemplifying the Usage -- 4.1 An Example Scenario with Alternative Dialogues -- 4.2 Setting up the System for the Scenario -- 5 Discussion and Conclusion -- References -- Socially Aware Interactions: From Dialogue Trees to Natural Language Dialogue Systems -- 1 Introduction -- 2 Background -- 2.1 Social Context -- 2.2 Social Identity Theory and Social Practice Theory -- 2.3 Cognitive Social Frames -- 3 Related Work -- 3.1 Scripted Dialogues -- 3.2 Context-Aware Conversational Agents -- 4 Dialogue System -- 4.1 Deliberation Cycle -- 4.2 Application -- 4.3 Authoring -- 4.4 Anamnesis Scenario -- 5 Discussion -- 6 Conclusion -- References -- Chatbot UX and Design -- The Impact of Chatbot Linguistic Register on User Perceptions: A Replication Study -- 1 Introduction -- 2 Background -- 3 User Perceptions of Register: the Original Study -- 4 Data Collection -- 5 Register Characterization -- 6 Text Modification -- 7 User Perceptions Study -- 7.1 Participants -- 7.2 Analysis of the Linguistic Features -- 7.3 Discussion -- 8 Conclusions -- References -- Conversational Agent Voting Advice Applications: A Comparison Between a Structured, Semi-structured, and Non-structured Chatbot Design for Communicating with Voters About Political Issues -- 1 Introduction -- 2 Related Research -- 2.1

Effects of the Chatbot Design -- 2.2 The Users' Level of Education -- 3  
Method -- 3.1 Design -- 3.2 Participants -- 3.3 Materials -- 3.4  
Instrumentation and Procedure -- 4 Results -- 5 Conclusion -- 6  
Discussion -- References.

Social Research with Gender-Neutral Voices in Chatbots - The  
Generation and Evaluation of Artificial Gender-Neutral Voices with Praat  
and Google WaveNet -- 1 Introduction -- 2 Literature Review -- 2.1  
Perception and Properties of Gender-Specific Voices -- 2.2 Gender  
Neutrality -- 3 Method -- 3.1 Choice of Production Methods -- 3.2  
Production of the Voices -- 3.3 Evaluation of the Voices -- 4 Results --  
4.1 Gender Perception -- 4.2 Naturalness and Pleasantness  
of the Voices -- 4.3 Confirmation of the Assessments -- 5 Discussion  
and Conclusion -- References -- Design Matters! How Visual Gendered  
Anthropomorphic Design Cues Moderate the Determinants  
of the Behavioral Intention Towards Using Chatbots -- 1 Introduction  
-- 2 Theoretical Background and Hypotheses Development -- 2.1  
Chatbot Acceptance Research and Definition of the Key UTAUT  
Determinants -- 2.2 The Role of Gendered Anthropomorphic Chatbot  
Design Cues -- 3 Research Design and Data Collection -- 4 Results --  
5 Discussion -- 6 Limitations and Further Research Implications -- 7  
Conclusion -- References -- Author Index.
