Sommario/riassunto	How are artificial intelligence (AI) and the strong claims made by their philosophical representatives to be understood and evaluated from a Kantian perspective? Conversely, what can we learn from AI and its functions about Kantian philosophy's claims to validity? This volume focuses on various aspects, such as the self, the spirit, self-consciousness, ethics, law, and aesthetics to answer these questions. Wie sind aus Kantischer Perspektive Künstliche Intelligenz (KI) und die starken Ansprüche ihrer philosophischen Vertreter zu begreifen bzw. zu bewerten? Was kann umgekehrt aus KI und ihrer Funktionsweise über die Geltungsansprüche der Kantischen Philosophie gelernt

werden? Zur Beantwortung dieser Fragen werden verschiedene Aspekte wie z.B. Ich, Geist, Selbstbewusstsein, Ethik, Recht, Ästhetik in den Fokus genommen.
