

1. Record Nr.	UNISA996465317103316
Titolo	Software Service and Application Engineering [[electronic resource]] : Essays Dedicated to Bernd Krämer on the Occasion of His 65th Birthday // edited by Maritta Heisel
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2012
ISBN	3-642-30835-X
Edizione	[1st ed. 2012.]
Descrizione fisica	1 online resource (200 p. 88 illus.)
Collana	Programming and Software Engineering ; ; 7365
Disciplina	005.1
Soggetti	Computer logic Computers Software engineering Computer communication systems Application software Logics and Meanings of Programs Computation by Abstract Devices Software Engineering Computer Communication Networks Information Systems Applications (incl. Internet)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and author index.
Nota di contenuto	A Fresh Look at Petri Net Extensions -- Modelling of Communication Platforms Using Algebraic High-Level Nets and Their Processes -- Modeling Revisited -- A Conceptual Framework and Experimental Workbench for Architectures -- Virtual Computing: The Emperor's New Clothes?- Linked Compute Units and Linked Experiments: Using Topology and Orchestration Technology for Flexible Support of Scientific Applications -- Pattern-Based Context Establishment for Service-Oriented Architectures -- Cloud Blueprints for Integrating and Managing Cloud Federations -- Dynamic Service Composition and Deployment with OpenRichServices -- An Architecture for Dynamic Service-Oriented Computing in Networked Embedded Systems -- Location-Based Services for Technology Enhanced Learning and

Teaching.

Sommario/riassunto

This festschrift volume, published in honor of Bernd Krämer on the occasion of his 65th birthday, contains 11 contributions by close scientific companions. Covering topics like Petri nets and theoretical computer science, software and service engineering, cloud computing, and e-learning, the articles presented span the range of the scientific work of Bernd Krämer.
