Nota di contenuto   Enterprise Modeling and Enterprise Architecture -- Formal Aspects of
                             Enterprise Modelling -- Foundations and Applications of Enterprise
                             Modeling -- Enterprise Ontologies -- Business Process Modeling --
                             Risk and Security Modeling -- Requirements Modeling -- Process
                             Mining.

Sommario/riassunto   This book constitutes the proceedings papers of the 13th IFIP Working
                             Conference on the Practice of Enterprise Modeling, held in Riga, Latvia,
                             in November 2020. Due to the COVID-19 pandemic the conference
                             took place virtually. The 19 full papers presented together with 7 short
                             and 2 invited papers in this volume were carefully reviewed and
                             selected from a total of 58 submissions to the main conference. The
                             special focus of PoEM 2020 is on the role of enterprise modelling in the
                             digital age. The selected papers are grouped by the following topics:
                             Enterprise Modeling and Enterprise Architecture, Formal Aspects of
                             Enterprise Modelling, Foundations and Applications of Enterprise
                             Modeling, Enterprise Ontologies, Business Process Modeling, Risk and
                             Security Modeling, Requirements Modeling, and Process Mining.
