

1. Record Nr.	UNISA996465374503316
Titolo	Next Generation Information Technologies and Systems [[electronic resource]] : 5th International Workshop, NGITS 2002, Caesarea, Israel, June 24-25, 2002. Proceedings // edited by Alon Halevy, Avigdor Gal
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2002
ISBN	3-540-45431-4
Edizione	[1st ed. 2002.]
Descrizione fisica	1 online resource (VIII, 176 p.)
Collana	Lecture Notes in Computer Science, , 0302-9743 ; ; 2382
Disciplina	004
Soggetti	Computer science Computers Computer communication systems Application software Multimedia information systems Database management Popular Computer Science Theory of Computation Computer Communication Networks Information Systems Applications (incl. Internet) Multimedia Information Systems Database Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The Fifth Workshop on Next Generation Information Technologies and Systems (NGITS'2002) -- Enabling Design-Centric eBusiness Applications -- Select-Project Queries over XML Documents -- Answering Cooperative Recursive Queries in Web Federated Databases -- Strongly Typed Server Pages -- A New Privacy Model for Web Surfing -- Design and Implementation of a Distributed Crawler and Filtering Processor -- Moving Objects Information Management: The Database Challenge -- Specifying Local Ontologies in Support of Semantic Interoperability of Distributed Inter-organizational Applications --

FOOM and OPM Methodologies - Experimental Comparison of User Comprehension -- The Natural Language Modeling Procedure -- Conversation about Software Requirements with Prototypes and Scenarios -- The Situation Manager Component of Amit — Active Middleware Technology.

Sommario/riassunto

NGITS2002 was the 7th workshop of its kind, promoting papers that discuss new technologies in information systems. Following the success of the four previous workshops (1993, 1995, 1997, and 1999), the 7th NGITS Workshop took place on June 24–25, 2002, in the ancient city of Caesarea. In response to the Call for Papers, 22 papers were submitted. Each paper was evaluated by three Program Committee members. We accepted 11 papers from 3 continents and 5 countries, Israel (5 papers), US (3 papers), Germany, Cyprus, and The Netherlands (1 paper from each). The workshop program consisted of 5 paper sessions, two keynote lectures, and one panel discussion. The topics of the paper sessions are: Advanced Query Processing, Web Applications, Moving Objects, Advanced Information Models, and Advanced Software Engineering. We would like to thank all the authors who submitted papers, the program committee members, the presenters, and everybody who assisted in making NGITS2002 a reality.
